

Thank you for your interest in our desserts!

Decorated Cookies and desserts are a premium works of art and take a lot of time.

We truly believe you get what you pay for when it comes to specialty items like these. You are not paying for just the ingredients, but our time spent communicating, designing, tweaking, decorating and packaging your little custom works of art. As with any other scratch made, custom item, we charge appropriately for our services based on our work quality, experience and product demand.

Important Notes:

- We do not do character cookies or trademarked cookies to avoid copyright infringement (unless if we have permission!). I can do sets inspired by a similar look and feel to capture the essence of the theme.
- Anything with gold/silver details need to be hand painted and takes much longer, resulting in a higher quote.
- All cookies are heat sealed by default to ensure freshness. Minis and smalls may be sealed 2-6 per bag. Standard cookies are sealed individually. Cookies never “go bad” (they dry out, but will have a hard time making anyone sick), so are best when consumed within 2 weeks of delivery (if they are heat sealed), or are still tasty up to 4 months if frozen in an airtight container and brought to room temperature in that container a few hours before serving (to prevent condensation from ruining the icing designs).
- We offer box sets for occasions like bridesmaid proposal, corporate events, etc. Please reach out and we can discuss options.
- Our default flavor is very-vanilla bean for sugar cookies. Other flavors (pumpkin spice, double chocolate, lemon vanilla) are available for a surcharge upon request. Our icing is a softer royal-icing type—not a hard crack like traditional royal icing, as some give when you bite into it.
- We are able to create vegan decorated sugar cookies as well-- please ask as there are larger minimum order requirements, and all products are created in a shared kitchen.

The prices below are starting points for our custom orders. As a cookie becomes more detailed, the longer it takes to initially design and then complete the order; therefore, your final quote may, in rare situations, differ from the guidelines below, particularly if scope creep occurs with design changes.
